THE CAPITOL ROOM

The Capitol Ballroom is our largest stage at HMAAC.

It is located on the second floor of our building and features a large, full service, bar at the rear and two service stations on either side.

We can arrange the room in three different configurations with different capacity limits.

Standing: 1100 capacity Seated: 502 capacity

Table and Chairs: 360 capacity

Stage Dimensions:

Proscenium: 30' wide x 14' tall

Stage: 30' wide x 16' deep

Stage Height: 40"

The stage has a 40' x 4' thrust off the front of the proscenium that is accounted into stage dimensions above.

POWER:

There are multiple power distribution boxes with 20-amp Edison boxes on both upstage right and upstage left.

There are also both a 100a, 208v, 3-phase tie in and a 200a, 208v, 3-phase tie in off stage left.

AUDIO:

The Capitol Room has the following in house Audio equipment:

Front of House mix position is 52' from the downstage edge, center of room raised above crowd level. Depending on the capacity of the show, this position **MUST** be used. Shows with more than 700 tickets sold cannot use areas outside the designated FOH position due to fire code.

CONSOLES:

(2) Avid Venue Profile (FOH/MON)

FOH:

(8) Clair I-3 Speaker Cabinets [4 per side\line array]

(8) Clair I-5b Subwoofers

AMPS:

Lake Speaker Processor [FOH]

(12) Crown MacroTech 3600vz Amplifiers [MON]

(8) Crown MacroTech 36x12 Amplifiers [FOH]

MONS:

(8) Clair SRM Bi-Amp Monitors

(1) Community IHP-1244 Speakers

* 4 additional QSC K-12.2's available upon request *

LIGHTING:

The Capitol room lighting currently features a downstage truss that is 3' onstage with 6 Mac Auras and an upstage truss with mixed intelligent lighting.

VIDEO:

The Capitol room lighting currently features a 14' x 7' video wall hung from our upstage lighting truss.

Panels are 3.9mm pixel quality with a 4K and runs off a NovaStar processing rack.

LOAD IN/LOAD OUT:

Parking is available in the front of the building and has both 50- and 30-amp shore power hookups on either side of the building, as well as a water hose hookup. Bands may load in from the front of the venue into an elevator (Door to Door – 59", Door – 42" x 84", Interior – 88" x 80" x 51") located at the top of a short ramp, and ride directly up to the Capitol Ballroom on the second floor. Storage for deads is available on either side of the room, behind stage, and in the basement of the venue.

HMAC provides loaders for load in and load out.

DRESSING ROOMS:

The Capitol Ballroom has a greenroom located on the third floor, as well as a backstage sitting area, both with their own private bathroom. During certain shows, the smaller venue (Stage on Herr) may double as a greenroom.

MERCHANDISING:

All merch sales will typically happen in the area at the back of the venue, across from the bar, in the main thoroughfare.

The area is well lit and has standard 15-amp outlets for convenience.

Travel & Lodging

Book with H·MAC and save at the top two hotels in the city!
Both within 2 miles of the venue! Contact JT@hbgarts.com
